

Why have gray hair?

Why allow yourself to become prematurely old looking? It's not necessary. Restore natural color to your gray or faded hair, naturally, easily, safely, in an inconspicuous way, so no one will know you are doing it. Be youthful and attractive looking. Keep your hair soft, glossy and lustrous. Don't use dyes—they give your hair an unnatural look. Always ask for and get

BLAZE DAMAGES ARMY TRANSPORT IN HOBOKEN PIER

Fire on Pastores Believed to Have Been Caused by Fumigation.

Fire was discovered between the first and second decks on the starboard side of the United States army transport Pastores at the former North German Lloyd dock in Hoboken early to-day. The vessel had been sealed up for

fumigation and there was no one aboard when the flames were discovered. Battalion Chief Kilday of the Hoboken Fire Department believes the fire was due to the fumigation.

The blaze created great excitement on the Hoboken water front, coming so soon after United States soldiers had raided the district. It was believed at first the flames were in the hold, where a quantity of foodstuffs was stored.

Soldier guards around the pier, now used by the army, were increased and soldiers fought the fire until they saw it was beyond their control. Then they allowed Hoboken firemen on the pier and ship.

An alarm brought two New York City fireboats. Fire engines were run out on the pier and used water from the river. It is believed the water may have done considerable damage to the foodstuffs and other stores on the boat. The ship itself was little damaged.

A thorough investigation is being made of the blaze. Some of the Germans taken in the raid earlier in the night had been corralled for a time on the dock where the ship is moored. On the concrete pier are stored millions of dollars worth of munitions. The Pastores arrived recently from France.

COAL SHORTAGE IN EAST TO BE RELIEVED SOON

Fuel Administration to Withdraw Priority Orders for West and Divert Shipments.

WASHINGTON, Nov. 20.—The Fuel Administration is considering immediate withdrawal of the priority order under which all Middle Western coal shipments have been going to lake ports for the Northwestern territory. When this is done the coal will be diverted to the East to relieve shortages, particularly in New England.

Basic prices for by-product coke were fixed by the Fuel Administration to-day as follows: Run of oven, \$6; selected foundry, \$7, and crushed over one inch size, \$6.50.

Gas coke for household use must be sold at the prices fixed for anthracite in the same locality. CLEVELAND, Nov. 20.—Detailed plans for a coal pooling agreement by which railroad transportation of coal is to be speeded up to end the country's coal shortage are to be laid before Homer H. Johnson, Ohio Coal Administrator, here to-morrow. The pool agreement will speed up railroad freight transportation by simplifying terminal conditions, eliminating all cross-switching, preventing reconsignments of coal and expediting unloading and delivering.

WATER POWER TO SAVE COAL UNDER NEW WAR PLAN

Development of Natural Energy to Be Urged on Congress by the President.

WASHINGTON, Nov. 20.—Water power development, to save vast quantities of coal, will go before Congress as one of the chief recommendations in President Wilson's second war message. It was learned to-day that Secretaries Lane, Baker and Houston have about

reached an agreement on the proposed legislation. Enough energy to run all the nation's industries, railroads and mines is still locked up due to differences between private interests and conservationists on the proper theme of development. Government experts estimate that enough of this could be put into use within a year to replace between 20 and 30 per cent. of all coal used now.

American Association of Tokio Welcomes Envoys Morris. TOKIO, Nov. 20.—The American Association of Tokio last night welcomed Roland H. Morris, the new American Ambassador to Japan, at a dinner in the Imperial Hotel.

URGES NEW WAR MEDALS.

Representative McCormack Wants U. S. Soldiers Rewarded for Bravery.

RYE, N. J., Nov. 20.—Representative McCormack will press upon Congress next month the necessity that deeds of bravery in action by American fighting men be adequately recognized through award of new medals.

I will propose three classes of a decoration, he told the United States Press to-day. "One medal would be for 'distinguished gallantry,' a second for 'valantry,' and a third, and regional decoration, for 'distinguished conduct.' Possibly the last might be a silk card, to be worn on the breast rather than a medal."

Getting Too Fat? Try This—Reduce

People who don't grow too fat are the fortunate exception. But if you find the fat accumulating or already cumbersome you will be wise to follow this suggestion, which is endorsed by thousands of people who know. Ask your druggist for if you prefer write to the Marmola Co., 984 Woodward Ave., Detroit, Mich., for a large case of Marmola Prescription Tablets. This is the price the world over. By doing this you will be safe from harmful drugs and be able to reduce two, three or four pounds a week without dieting or exercise.—Advt.

No COUGH, COLD or CROUP for me. I take

BULL'S COUGH SYRUP

James McCreery & Co.

5th Avenue

COMMENCING WEDNESDAY, NOVEMBER 21ST

34th Street

For Four Days Only An Unprecedented Sale of FINEST WINTER OVERCOATS

For Men and Young Men

Size 36 to 46

\$55.00

formerly \$65.00 \$75.00 \$85.00

By special arrangement, within the past few days, extraordinary purchases have been made of Men's Finest Winter Overcoats, and are being offered at pronounced savings

Fashioned of Imported Fabrics, including Ballygarvey, O'Brien and Oxford Meltons; also Overcoatings from the foremost Woolen Mills of America, comprising Worumbo Montagnacs, Elysian, Patent Beaver, Hockanum and Smooth Kersey.
